### Lessard-Sams Outdoor Heritage Council Laws of Minnesota 2009 Final Report

Date: October 20, 2017

Program or Project Title: Reinvest in Minnesota Wetlands Reserve Program Acquisition and Restoration, Phase 1

CLEA WAT LAND

Funds Recommended: \$9,058,000

Manager's Name: Tim Koehler

Organization: BWSR

Address: 520 Lafayette Road North

City: St. Paul, MN 55155
Office Number: 651-296-6745
Email: tim.koehler@state.mn.us

Legislative Citation: ML 2009, Ch. 172, Art. 1, Sec. 2, Subd. 4(d)

**Appropriation Language:** \$9,058,000 in fiscal year 2010 is to the Board of Water and Soil Resources to acquire permanent easements and restore wetlands and associated uplands in cooperation with he United States Department of Agriculture Wetlands Reserve Program. A list of proposed acquisitions and a list of proposed projects, describing the types and locations of restorations, must be provided as part of he required accomplishment plan.

**County Locations:** Becker, Big Stone, Blue Earth, Clay, Cottonwood, Douglas, Jackson, Kandiyohi, Mahnomen, McLeod, Norman, Pennington, Pope, Rice, Steele, Swift, Traverse, and Wilkin.

#### Eco regions in which work was completed:

- Forest / Prairie Transition
- Prairie

#### Activity types:

- Protect in Easement
- Restore

#### Priority resources addressed by activity:

- Wetlands
- Prairie

#### **Summary of Accomplishments:**

The RIM-WRP Partnership permanently protected 7,276 acres of priority wetlands and associated upland native grassland wildlife habitat via perpetual conservation easements on 63 sites and leveraged over \$13 million of federal Wetlands Reserve Program funds.

#### Process & Methods:

Described as the premier private lands wetland restoration easement program in the nation, the RIM-WRP partnership combined Minnesota's RIM Reserve conservation easement program and the United States Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) Wetlands Reserve Program (WRP). Combining RIM Reserve and WRP allowed OHF to leverage Federal Farm Bill conservation dollars to Minnesota. Utilizing both programs resulted in competitive payment rates to landowners and sharing of the costs associated with perpetual easement acquisition and restoration by both the federal and state programs.

This opportunity was offered statewide but had a priority focus in the ecological provinces of the state that have experienced significant losses of wetland and associated prairies. It was delivered by local NRCS staff, local Soil and Water Conservation District (SWCD) staff and assisted by program staff from both NRCS and the Board of Soil and Water Resources (BWSR). In addition, Ducks

Unlimited (DU) contract employees and staff provided by Minnesota Waterfowl Association (MWA) assisted in program delivery. Since the SWCD is responsible for the local delivery of the RIM Reserve program to private landowners on behalf of the State of Minnesota, they were ideally suited to work in concert with their local NRCS staff to efficiently and effectively deliver the RIM-WRP partnership. Once an easement is acquired NRCS is responsible for maintenance, inspection and monitoring during the life of their 30-year WRP easement. The state of Minnesota assumes sole responsibility via its RIM Reserve easement once the 30-year WRP easement has expired. BWSR partners with local SWCDs to carry-out oversight, monitoring and inspection of its conservation easements.

#### Final Summary:

In 2008 and 2009 RIM-WRP sign-ups occurred. 100's of applications were generated that far exceeded this appropriation. 63 RIM-WRP easements were acquired on 7,276 acres. \$6.3 million of RIM funds from OHF were paid directly to landowners which leveraged over \$13 million of federal WRP funds. Approximately 2,423 acres of wetlands and 4,853 acres of adjacent uplands have been protected.

The RIM-WRP Partnership successfully demonstrated that the State of Minnesota can cooperatively work with a federal partner (NRCS) and through a local delivery system (SWCD, NRCS, DU and MWA) to implement a permanent easement protection program that yielded thousands of acres of permanently protected wildlife habitat. This significant leverage was due to the amount of easement payments, conservation plan payments, and other costs the NRCS contributed to this partnership. The NRCS made the bulk of the easement payment portion through 30-year WRP Easement acquisition, while BWSR paid an additional portion for the Permanent RIM Easement.

NRCS paid approximately 75% of the restoration costs for these easements, with RIM picking up the remaining 25%. The use of NRCS Practice Standards, along with BWSR's Native Vegetation Guidelines led to very high diversity mixes being seeded. The level of wetland restoration was dependent on restorable extent that would not impact lands outside the easement area. BWSR & NRCS evaluated restoration extent during our scoring review to ensure restoration was actually feasible, then followed up with site analysis and surveys.

Several easements contained CRP contracts, where looming expiration meant a risk of losing habitat that was already in good condition. We estimate that 400 acres contained CRP contracts that were set to expire. Upon execution of the WRP Easement and RIM Easement, CRP contracts were required to be terminated.

Unfortunately, \$1,141,926 of the original allocation was returned and the narrative below will explain the challenges that caused this to occur. Challenges included:

- 1. A misunderstanding occurred between BWSR and LSOHC staff related to the transferring of one OHF appropriation to a future year appropriation. BWSR was under the false assumption that at the time of the final encumbrance date of the ML 2009 appropriation that we could just roll the balance to the ML 2010 appropriation. Once it was discovered that this was not possible we were already past the encumbrance date for this appropriation and could not make any new encumbrances to utilize the balance of funds.
- 2. The State of Minnesota converted from an old financial system (MAPS) to a new system (SWIFT) during the period that this appropriation was open. This conversion caused a mis-allocation of ML 2009 RIM-WRP funds to ML 2010 RIM-WRP. Once this issue was discovered it was again past the date to make encumbrance changes to the ML 2009 appropriation.
- 3. After the encumbrance deadline for these funds had passed a few landowners canceled their RIM-WRP applications. We were unable to reallocate those funds to additional applications since the encumbrance deadline date had passed. As this was the first appropriation that BWSR received from the OHF many lessons have been learned.

One lesson learned with this first year of OHF appropriations was that we had one easement that took an extra long amount of time to be acquired due to a number of title issues. In future appropriations we have moved problem easements to newer appropriations in order to speed up the final reporting time period and allow enough time to get the title cleared.

#### Explain Partners, Supporters, & Opposition:

Delivery of this program was a coordinated approach that brought together Minnesota BWSR, Minnesota NRCS, local Soil & Water Conservation Districts, Ducks Unlimited, Minnesota Waterfowl Association, and Farm Bill Assistance Partnership Staff, as well as other key conservation partners interested in private land conservation.

#### **Additional Comments:**

Exceptional challenges, expectations, failures, opportunities, or unique aspects of program

Easement processing with RIM-WRP had taken on average 36 months versus the average 12 to 18 months we would have seen through stand-alone RIM. This was due to a number of factors, primarily centered on the federal processes, staffing and funding challenges. Contracting delays led to delays in being able to conduct restorations, and inability for NRCS to cost-share for certain activities led to a state cost that exceeded our expectations.

However, this partnership secured several significant wetland restoration sites that can be considered shining examples of the habitat Outdoor Heritage Funds can provide. This program leveraged a large amount of federal funds to achieve more than double the acres than if we did not have this partnership.

This program successfully secured several wetland and grassland habitat complexes. This partnership added parcels adjacent to current easement areas to achieve greater restorations and brought several landowners together for joint restorations.

#### Other Funds Received:

• Environmental and Natural Resource Trust Fund

#### How were the funds used to advanced the program:

The Farm Bill Assistance Partnership with BWSR, DNR, PF, NRCS and SWCDs as primary partners, provided funding to SWCDs to utilize technicians to promote the conservation provisions of the Federal Farm Bill and other conservation program opportunities to private landowners. The Environmental and Natural Resources Trust Fund (ENRTF) via LCCMR recommendations provided a portion of this funding.

# What is the plan to sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

Once a RIM easement is acquired, BWSR is responsible for maintenance, inspection and monitoring into perpetuity. The BWSR partners with local SWCDs to carry-out oversight, monitoring and inspection of its conservation easements. Easements are inspected for the first five consecutive years beginning in the year after the easement is recorded. Thereafter, on-site inspections are performed every three years and compliance checks are performed in the other two years. SWCDs report to BWSR on each site inspection conducted and partners' staff document findings. A non-compliance procedure is implemented when potential violations or problems are identified. The amount listed for Easement Stewardship covers a portion of costs of the SWCD regular monitoring, BWSR oversight, and enforcement.

#### **Outcomes:**

The original accomplishment plan stated the program would

#### Programs in forest-prairie transition region:

Not Listed

#### How will the outcomes be measured and evaluated?

An increase of wetland and associated native grassland habitat availability within a certain region are expected to increase the carrying capacity of wetland-dependent and grassland-dependent wildlife within that region. This would have a positive impact on both game and nongame species. We expect more abundant populations of endangered, threatened, special concern and game species as these complexes are restored.

#### Programs in prairie region:

• Not Listed

#### How will the outcomes be measured and evaluated?

An increase of wetland and associated native grassland habitat availability within a certain region are expected to increase the carrying capacity of wetland-dependent and grassland-dependent wildlife within that region. This would have a positive impact on both game and nongame species. We expect more abundant populations of endangered, threatened, special concern and game species as these complexes are restored.

### **Budget Spreadsheet**

Final Budget line item reallocations are allowed up to 10% and do not need require an amendment to the Accomplishment Plan

Total Amount: \$9,058,000

#### **Budget and Cash Leverage**

<b>Budget Name</b>	Request	Spent	Cash Leverage (anticipated)	Cash Leverage (received)	Leverage Source	Total (original)	Total (final)

Tota	1.28	8.00	\$459,000	\$0		\$459,000

#### Explain any budget challenges or successes:

Note: \$1,141,926 of the Supplies/Materials line is the amount already returned to the OHF (reporting this amount on that budget line as directed by LSOHC Staff).

We received \$13,100,200 of federal leverage through this program.

Delays in restoration, partially due to federal contract processing delays, led to increased restoration costs.

All funds have been encumbered and all budget lines are reported as spent. Should any left over funds remain as the appropriation closeout occurs in the State financial system, they will be returned to the Outdoor Heritage Fund.

## All revenues received by the recipient that have been generated from activities on land with money from the OHF:

Total Revenue: \$0
Revenue Spent: \$0
Revenue Balance: \$0

- D. This is not applicable because the recipient is a state agency or department.
- E. This is not applicable as there was no revenue generated.

### Explain the success/shortage of acre goals:

This Appropriation forecasted a 5,800 acre goal (12/11/14 Accomplishment Plan), which was achieved and surpassed by over 1,476 acres, resulting in 7,276 acres of permanent easements. This is a 25% increase of acres achieved over this goal. Within the first couple of years of LSOHC reporting, there was a double counting of acres due to our expectation of both easement acquisition and restoration, where our total expected acres was reported on each of those lines. This makes it appear as if we only achieved around half of our goal.
